ABOUT MYSELF

An independent and self-motivated graduate with very enthusiasm to do something. Innovative and detail-oriented, consistently delivering high-quality web solutions. Passionate about staying up-to-date with the latest technologies and trends in the field. Committed to driving project success through effective communication and collaboration within teams.

Work Experience

zzz-solution 2022-2023

Assisted individuals in developing personal websites, leveraging my skills in JavaScript, HTML, and CSS. Worked closely with clients to understand their requirements and deliver tailored web solutions. Applied best practices for UI/UX design, ensuring visually appealing and user-friendly websites. Provided ongoing maintenance and support to address any issues or updates required. Proficient in API handling with Node.js, Express, and MongoDB. Skilled in using Postman for API testing and development. Familiarity with Laravel for web development. Additionally, experienced in utilizing build tools such as Vite, Webpack, and Parcel. Knowledgeable in PHP, Web Automation, Figma, and AdminLTE.

Certificates

Secondary School Certificate (2014)

Higher Secondary Certificate (2016)

Bachelor of Science (BSc) in Computer Science and Engineering, Daffodil International University, (2021)

PROJECTS

Video Search

The Video Search Project is a web application designed to enable users to search for videos from YouTube's vast library. By integrating YouTube's API, the application allows users to find and view relevant videos right from the comfort of the website.

Image Search

The Image Search Project is a web application that enables users to perform image searches using advanced image recognition technology. Leveraging the power of image search APIs, the application allows users to find visually similar images, related content, or relevant information related to their uploaded images.
